Dear Sir:

The present paper is being submitted in response to the Restriction Requirement Office Action dated August 4, 2005 in the above-identified application.

**Election of Claims** begins on page 2 of this paper.

**Amendments to the Claims** are reflected in the Listing of Claims which begins on page 3 of this paper.

**Remarks** begin on page 6 of this paper.

**I. Election**

In the Office Action mailed August 4, 2005, the Examiner alleges that the application contains claims directed to two inventions and, thus, required restriction of either:

Group I: Claims 1-18, drawn to a semiconductor device; or

Group II: Claims 19-23, drawn to a method of making a semiconductor device.

In response, Applicants hereby elect Group I, corresponding to claims 1-18. Applicants' election is made with traverse on the grounds that the embodiments delineated by the Examiner are not patentably distinct and therefore constitute a single invention concept.
